

ALBRECHT IS DYING
AT HIS VIENNA HOMEFIELD MARSHAL OF AUSTRIA
ON HIS DEATH BED.

Trinity College at Port Hope, Canada, Destroyed by Fire This Morning—American Protectorate Said To Have Been Declared at Honolulu—Other Foreign News.

Vienna, Feb. 11.—Arch-duke Albrecht, the field marshal of Austria, is dying at his home here.

Port Hope, Ont.—Trinity college burned this morning and the loss will reach \$80,000.

Honolulu, Feb. 2, via Victoria, B. C., Feb. 11.—It is learned from semi-official reports that Acting Rear-Admiral Beardslee's instructions authorize him to take possession of Pearl Harbor for a naval station and to declare an American protectorate over the Hawaiian Islands as soon as the political conspiracy has been disposed of by the military commission.

It is the general belief that international complications are likely to arise over the finding and carrying out of sentences of the court martial. Since last advices there has been no change in the attitude of the American minister regarding the outcome of the court martial trials affecting American citizens. Both Mr. Willis and the British representative asked the Hawaiian government, in the event of the death penalty being passed on subjects of their countries that sufficient respite be granted until a copy of the evidence and findings could be transmitted to their home governments. The government has not expressed a willingness to grant the request so far. It is believed if these requests are refused an aggressive position will be taken by both ministers and that if necessary they will resort to force to carry out their demands to be made.

The military commission has been in session now fourteen days, tried only thirty-nine cases, and more than 300 persons are yet to be arraigned.

D. Danuha and John Kalaukoa were acquitted. The sentences of imprisonment include two for life, two for twenty years, four for ten years and so on, with fines from \$5,000 to \$10,000.

Washington, Feb. 11.—The report that Admiral Beardslee has seized Pearl Harbor and declared a protectorate over the Hawaiian Islands is not believed here. Neither the state nor navy department has intimation of such action. It is stated by both that Admiral Beardslee's instructions have already been made public and there is nothing in them to justify such action on his part.

TO BE TRIED FOR TREASON.

Sufficient Evidence to Convict the Ex-Queen Have Been Secured.

Victoria, B. C., Feb. 11.—Hawaiian advices by steamer Warrimoo to Feb. 2: There is a lull in affairs here, and quiet will probably reign until the military court now sitting will have finished its work. There are a large number of conspiracy cases yet to be tried, and the probabilities are that the court will sit for two or three weeks at least. Great interest is attached to the forthcoming trial of the ex-queen. The government says it has more than sufficient evidence to convict her. What her punishment will be in case of conviction is hard to conjecture. Her case will probably come up next Monday. She is charged with treason. The military commission has brought in findings in twenty-four cases. Their names are:

R. W. Wilcox, S. Nowlein, H. F. Bertelman, Carl Widemann, W. H. C. Greig, Louis Marshall, W. C. Lane, J. C. June, C. T. Gulick, W. H. Rickard, W. T. Seward, T. B. Walker, S. Monom Kaula, P. L. Lane, Thomas Poole, J. Kalaukoa, Robert Balan, J. W. Kipikane, K. K. Joseph Clark, D. Januha, W. Widdifield, Joak Kiah.

Of the foregoing D. Januha and J. Kalaukoa were acquitted. The others were all found guilty and sentences were fixed by the commission subject to review by President Dole. The sentences vary much, all the way from sentence of death to imprisonment for five years, with fines. The lowest sentence for treason by the Hawaiian statute is imprisonment for five years and a fine of not less than \$5,000. The six leaders were all sentenced to be hanged as follows:

BERTLEMAN, HENRY: sentence will be commuted because he gave evidence valuable to the government.

GULICK, CHARLES T.; born in Hawaii.

NOWLEIN, SAM; sentence will be commuted the same as Bertelman's.

RICKARD, WILLIAM H.; is an Englishman.

SEWARD, WILLIAM H.; is an American.

WILCOX, ROBERT W.; a native.

The only one of the four to be hanged who is entitled to the protection of the United States is William T. Seward. As yet no date has been set for the executions.

Thurston Says It's Been Too Gentle.

Washington, Feb. 11.—Lorin A. Thurston, the Hawaiian minister, being asked whether he had any information concerning the alleged sentencing to death of some of the leaders in the late Hawaiian insurrection, said he had received no direct communication concerning the sentences; nor did he know precisely what action will be taken; but said:

ADRY HAYWARD TO-DAY.

Defense at Minneapolis Will Try to Show He Is Insane.

Minneapolis, Minn., Feb. 11.—Harry Hayward has his ever present nerve with him during the trial for his life, as is shown by his statements yesterday. One of his keepers engaged in conversation with him and Harry made a special request that he be allowed to remain in his present cell if he were convicted, which at present seems probable.

"I want to be where I can see the scaffold erected and watch it after it is up," was his cool remark in answer to questions.

To-day another star witness will go on the stand in the case, being no other than Adry, the brother who first confessed. He will tell the story of how Harry threatened Miss Gings' life and how he told "Elder" Stewart of it before the murder. Erwin has announced that he will have experts present to make a report as to Adry's sanity. It is believed the defense will try to show he was the instigator of the crime or involved in it.

TO BURN UP INDIANAPOLIS.

Incendiarists Start Another Blaze With a Loss of \$20,000.

Indianapolis, Ind., Feb. 11.—The authorities are reluctantly coming to the belief that a systematic effort is making to burn the city. The last week has been marked by disastrous fires. Late last night an incendiary set fire to the basement of J. A. Treat's merchant tailoring establishment in the heart of the business center. Coal oil was also applied to the top floor. It was extinguished with \$20,000 loss, partly covered by \$14,000 insurance.

Police Talk of Striking.

Minneapolis, Minn., Feb. 11.—Some excitement was caused by a report that the policemen were about to strike on account of a recent cut in their salaries. Careful inquiry among policemen, however, elicited the information that the report had been exaggerated. As a matter of fact, the men have been quite discontented since the cut was made two weeks ago, and there has been some talk of trouble, not in the nature of a strike necessarily, but of a united protest against it. It is improbable that a strike will result, as the men are under bonds to the city for the faithful performance of their duties, and these bonds would be forfeited.

Look for Compromise in Brooklyn.

New York, Feb. 11.—It was ascertained yesterday on good authority that a third party is trying to bring about a compromise between the Brooklyn strikers and one or more of the trolley companies. An attempt to override the veto of the Aldermen's resolution revoking the railroad franchises will probably be made to-day by the board of aldermen. It was a quiet Sunday in Brooklyn. No acts of violence were reported and a limited number of cars ran without interruption. The smash-ups, however, still continued.

Have a Short Session.

Springfield, Ill., Feb. 11.—The house convened at 10 o'clock Saturday morning with about a dozen members present. Mr. Kincheloe introduced a bill to punish corrupt practices in relation to elections. The bill embodies substantially the provisions of the measure upon the same subject introduced by Representative Dazey at the last session. The house, after being in session about ten minutes, adjourned to 5 o'clock this evening.

Starves Himself to Death.

Birmingham, Ala., Feb. 11.—Young Stovall, who murdered Wiley Jordan, his brother-in-law, for alleged mistreatment of his wife, died in jail at Jacksonville last night. For ten days he had refused anything to eat. He had previously confessed the murder. Jordan was shot with a load of buckshot as he sat by his friends with his family at night.

Nebraska's Relief Work.

Lincoln, Neb., Feb. 11.—The governor employed a special agent last week to inform him as to the number of cars of food and fuel intended for the relief of Nebraska's destitute unnecessarily accumulated on side tracks and a senatorial committee was selected to keep the relief commission from going to sleep. Complaints of failure to aid many worthy destitute, however, continue to pour into Lincoln.

Stage Stalled in Snowdrifts.

Claremont, Wyo., Feb. 11.—Mail and freight traffic is almost suspended. The mercury was away below zero several days, with a minimum of 26 degrees. Unfired range stock are in good condition, but heavy losses will occur if warm winds do not soon melt the snow. The stage was stalled in huge drifts for days and nights. Destructive avalanches are apprehended from the upper valley.

To Reorganize Knights of Labor.

Columbus, Ohio, Feb. 11.—In response to a call issued by C. R. Martin of Tiffin a conference of dissatisfied Knights of Labor will be held here to-day. A delegate stated that the conference would lay the ground work for a new organization of the knights. It is claimed a majority of the knights of the country are not in accord with the present administration of the order.

Given Power to Conclude Peace.

Pekin, Feb. 11.—Full powers have been telegraphed to the Chinese peace envoys with a view of a renewal of the negotiations with Japan. The envoys are now at Nagasaki, Japan, whither they went after the Japanese government refused to treat with them, their credentials being imperfect in not clothing them with plenary powers to conclude peace.

Confirms the Report.

Rome, Feb. 11.—A cardinal confirms the report that the sultan invited the pope to mediate in behalf of Turkey with the powers on the Armenian question. The pope declined to do so but advised the sultan to appoint christian governors. This made the sultan angry.

AND STILL NO NEWS
OF LA GASCOGNETHE FRENCH STEAMER HAS
NOT BEEN SIGHTED.

Several Vessels Have Arrived, But None of Them Had Seen the Missing Liner—Santiago Took Forty Men From a Wreck—Ohio River Boats Suffer.

New York, Feb. 11.—Several vessels arrived this morning but there is no news of La Gasconne. The steamer Santiago rescued forty members of the crew of the Cienfuegos which stranded at Pierre Island. At two o'clock this morning it was believed that La Gasconne had arrived but this proved untrue. At that hour two steamers arrived off Sandy Hook one of which was believed to be La Normandie, sister ship of La Gasconne. It was due to-day. The second ship has not been made out. La Normandie sailed from Havre Feb. 2, and, coming over the same course as the La Gasconne, it was confidently expected it would have tidings of the other. No signals to that effect, however, were displayed, and now the officials of the line fix their hope on La Touraine, which sailed for Havre Wednesday last.

New York, Feb. 11.—At midnight last night the tale was still the same—no news of La Gasconne. During the day there was a momentary belief that a report was circulating that something had been heard of La Gasconne in the vicinity of Sable Island. But, if off Sable Island, the danger of its loss would be very great; if on Sable Island, all hope might as well be given up. The rumor could not be verified even in Halifax; on the contrary special dispatches from that city were to the effect that the rumors could not be traced to any satisfactory source. There is no communication with Sable Island except by water, and tugs go but rarely to that desolate sand heap in the Atlantic, the terror of the marine world. Certain it was no word had been received from Sable Island. So all the day there was nothing beyond theories, as has been the case all the last week. Here there was absolutely no news. During the day, however, another overdue steamer came in—the Red Star Rhynland, from Antwerp, sixteen days out. It had a heavy list to starboard, caused by the shifting of its cargo in the tremendous seas encountered on its tempestuous passage, and it is a mass of ice, below and aloft, from stem to stern.

The Cunarder Umbria, Capt. Dutton, which sailed from Liverpool Feb. 2 via Queenstown the 3d, reached quarantine at 11:42 yesterday morning. It brings no word of La Gasconne. During the only spell of good weather on the vessel's voyage it was enabled to rescue fourteen persons who were adrift in a waterlogged, helpless bark.

Halifax, N. S., Feb. 11.—A good deal of speculation has been indulged in here over a report that the steamer La Gasconne was ashore on Sable Island. No one can tell how, when, or where the rumor started. It certainly is not official. The only communication with Sable Island this time of the year is by carrier pigeon and none have arrived at the lofts here. The superintendent says none would be let go in such weather as has prevailed last week.

DAMAGE TO OHIO RIVER SHIPPING.

Long Cold Snap Causes Heavy Losses at Evansville, Ind.

Evansville, Ind., Feb. 11.—The damage to shipping interests at this port by the cold spell will be serious. The Carrie Hope and the big wharf boat are fearing the worst. The Hope was moored across the mouth of a sewer and the falling water leaving it stranded on the bottom of the river caused it to break in two to-day. The boat belongs to the Louisville and Evansville mail line packet company and has been plying as a regular packet from this city to Owensboro, Ky. It is valued at \$10,000. The hull for the new wharf boat for the Louisville and Evansville and Paducah and Paducah and Cairo Packet company is in an ugly position and will be lost. The Louisville and Nashville wharf boat at Henderson, valued at \$10,000, and the Cincinnati, Memphis and New Orleans packet company's steamer Buckeye State, valued at \$20,000, are in dangerous positions. They are hemmed into the bank, with the ice gorged fifty feet outside of them.

Fuel Reaches Ann Arbor Ferry No. 1.

Manistee, Mich., Feb. 11.—Fuel was finally put on Ann Arbor Ferry No. 1 yesterday by the aid of teams and handsheds. The boat will attempt to break from its icy prison to-night and try and make its way to Frankfort. It is reported the harbor at that point is clear of ice. If it is possible to get into the harbor there the boat will coal up and return to this port and release the No. 2 from its perilous position. The tug Smith attempted to get out of the harbor yesterday, but near the mouth of the river encountered ten inches of ice and was compelled to give up the struggle.

Snow Wrecks a Passenger Train.

Cass City, Mich., Feb. 11.—A south-bound special train on the Pontiac, Oxford & Northern railroad met with a peculiar accident here yesterday afternoon. The train carried thirty-five passengers and was drawn by two engines headed by a snow plow. Upon striking a cut the snow plow was thrown completely around and its rear placed upon the top of a fourteen-foot embankment. The first locomotive was thrown from the track. Both engines and the forward coach were badly damaged. No one was seriously injured, but the crew of the snow plow and forward engine had narrow escapes.

CHICAGO IS TO GET
THE POST OFFICETHE BILL PASSED THE HOUSE
THIS MORNING.

Senate Amendments Not Stricken Out—Time Taken Up with the Introduction of Resolutions—No Gold Bill Bond Is Hoped For—Other Washington News.

Washington, Feb. 11.—The bill to build a new postoffice at Chicago, passed the house this morning with the senate amendments. The time of the senate was taken up with the introduction of resolutions. Today the house enters upon the last three weeks of the session and there is no present expectation that any effort will be made to pass a bill authorizing gold bonds during the coming week. The majority of the republicans are against it, and without their aid the democratic leaders believe it is a useless waste of time to consider such a measure in the house. To-day the consideration of the resumed and if not completed it will go over until Wednesday. To-morrow by agreement having been set apart for the bills reported from the committee on District of Columbia. After the legislative appropriation bill is disposed of the naval appropriation bill will be taken up and it is expected it will consume the remainder of the week if a determined effort is made by the naval committee to provide for the construction of the new cruisers they have recommended.

To Push the Pooling Bill.

Washington, Feb. 11.—The greater part of the week in the senate will necessarily be devoted to the appropriation bills. The postoffice bill will be the first move to take up the pooling bill after the postoffice bill shall be disposed of. Senator Allen is also anxious to call up his resolution for the investigation of the Alabama elections. Should the bankruptcy bill not be displaced by the pooling bill the chances for its further consideration are very slight. Senator George, the especial champion of the bankruptcy bill, says he has a faint hope for it, but admits that the fight against it is so bitter and persistent as to render the prospect doubtful. The possibilities include more or less reference to the financial and Hawaiian questions.

Will Build Hawaii Cable.

Washington, Feb. 11.—By the decisive vote of 36 to 25 the senate voted Saturday to inaugurate the project of laying a cable from the Pacific coast to Hawaii. An amendment to the diplomatic and consular appropriation bill was made giving \$500,000 for beginning work on the cable and authorizing the President to contract for the entire work, estimated to cost \$3,000,000.

EUROPE FEELS IT.

Terrible Storm Rages in Ireland and on the Sea.

Dublin, Feb. 11.—A terrific snow storm raged in Ireland Saturday night and yesterday. The snow lies three feet deep and in some places is drifted to the depth of from eight to ten feet. A message received in Cork by a railway company states that the storm is so violent at Queenstown that all the telegraph lines have suspended business. The temperature is the lowest recorded for forty years. An unusually high tide flooded the custom house quay and washed away the stone pavement. Much damage was done along the shore. Several small craft have foundered. Traffic in the harbor and on the river is suspended. Quite a lot of cross channel steamers are weather bound in the harbor. The storm is still sweeping with awful fury along the coast. Twenty steamers have sought shelter in Queenstown harbor, among them being the British cruiser Carnarvon. It is feared that many vessels are in distress in the channel.

London, Feb. 11.—The cold continues unabated in England. Several rivers are frozen, including the upper reaches of the Thames.

Paris, Feb. 11.—Dispatches from various parts of the continent show that weather of unusual severity still prevails. The river Seine, from beyond Paris to its source, is frozen over. In some parts of Rhenish Prussia and Thuringia the mercury went to twenty-two degrees below zero. Eight more deaths caused by the cold are reported from various parts of Germany.

Burns a Block of Seven Stores.

Rockford, Ill., Feb. 11.—Fire broke out in the restaurant of Erickson & Anderson on Seventh street between 4 and 5 o'clock yesterday morning, and the entire syndicate block, of which the restaurant occupied a part, was destroyed. It was a three story brick structure containing seven stores with living rooms above, which were occupied by forty people. Little property was saved. The building was valued at \$50,000. The loss on stocks is estimated at \$20,000.

Panhandle Express Is Wrecked.

Chrichsville, Ohio, Feb. 11.—The Panhandle express, bound for Chicago, was derailed at Glasgow station, all the cars leaving the track because of a broken rail, but none turning over. The train proceeded after six hours' delay, with no one seriously hurt. It was a miraculous escape for the passengers. The wreck was due to the train slacking up where the road changes from the double to the single track.

Planing Mill Burned.

Elwood, Ind., Feb. 11.—The Elwood planing mill caught fire last night and burned to the ground. The fire threatened to destroy the adjacent lumber yard valued at \$100,000 and the surrounding dwellings. The company's loss is estimated at \$50,000. The electric light company was leasing power of the planing mill company, and the city is in darkness.

TWENTY SAILORS DIE.
A SHEBOYGAN FIGHT

WILL COST A LIFE

Sloop Scandinavian Cast Away in the Gulf.

Galveston, Tex., Feb. 11.—The tug, Seminole arrived this morning and reported having sighted the sloop Scandinavian bottom up near High Island. The crew of twenty men were lost.

ILLINOIS LEGISLATURE.

Broken by a Holiday the Week Will Be Given to Committees.

Springfield, Ill., Feb. 11.—It is anticipated that during the ensuing week in the legislature will be a dull one. The members of both houses will practically be on a vacation until Wednesday morning. Tuesday is Lincoln's birthday and a legal holiday. While there is a session of each house at 5 o'clock this afternoon it will be only nominal, and it is probable not more than a dozen members will be in attendance. An adjournment will of course be taken over to Wednesday morning without any attempt to transact business.

There are no special orders set for this week in either house, and when the members get back to the capital the remainder of the week will be devoted chiefly to committee work. Among the measures which will come up on third reading in the house is the bill of Mr. White of Whiteside making incurable insanity a ground for divorce. There seems to be considerable opposition to this measure, and it will occasion no surprise should it fail to pass. Mr. Cochran will probably present the committee report on the civil service bill Wednesday. Every effort will be made to push the bill so as to secure its passage and approval by the governor ten days before the spring election in Chicago, and thus enable the people of that city to vote upon the question of its adoption at the same time the new mayor is elected.

TO QUIT EXPRESS BUSINESS.

Northern Pacific Line May Sell to the American.

New York, Feb. 11.—It is understood that the Northern Pacific railroad is making arrangements for the sale of the Northern Pacific Express company, of whose \$343,000 capital stock the road owns \$342,500, the remainder being held by the directors. The Northern Pacific Express company operates over the branch lines of the railroad, while the American Express company has the rights of the main line. Negotiations are said to have been pending with several express companies, but of course nothing definite will be concluded without the action of the court. It is thought likely that the American Express company will acquire control of the smaller concern in view of the former's standing on the main line of the railroad.

BAD YEAR FOR CANADA.

Failures for 1894 Largely in Excess of 1893.

Montreal, Que., Feb. 11.—At the annual meeting of the Toronto board of trade the retiring president, Hugh Elaine, said that the last year was one of the most disastrous and unsatisfactory that the country had experienced. The number of failures was 40 per cent more than the previous year and had occurred especially in business lines rather than manufactures. He advised that no foreign money be borrowed, and urged a reduction in the rate paid to depositors in savings banks. In every way he urged retrenchments.

Dr. Thomas Testifies.

Indianapolis, Ind., Feb. 11.—The legislative committee has been investigating the affairs of the state hospital for the insane at Evansville returned yesterday afternoon. In a rigid examination conducted by Senator Boyd of Hamilton county, Dr. Thomas, superintendent, said the hospital was conducted under civil service rules, and that Superintendent Thomas had borrowed money from the employees was sustained, but these loans were made in a straight business way. The committee finds that a large number of applications for admission are on file that cannot be heeded on account of an insufficiency of beds. Senator White (rep) of Spencer, Representative Williams of Evansville were made a special committee to examine the books.

Children Burned to Death.

Brazil, Ind., Feb. 11.—A 6-year-old son and 3-months-old daughter of William Cassidy, residing eight miles north of this city, were burned to death Saturday evening. Mrs. Cassidy left the children in the house while she went to feed the hogs and when she returned they were both lying dead upon the floor, their bodies having been burned to a crisp. It is thought their clothing caught on fire while they were playing around a grate.

Shot Her for Jilting Him.

Portland, Ore., Feb. 11.—At Hillsboro H. F. Dant, a veteran of the civil war and 50 years of age, shot Mrs. John Mueller and her daughter, Mrs. Manning, and then killed himself. He had paid the costs of divorce proceedings for Mrs. Manning, in consideration of her promise to marry him. She refused, and in a quarrel in which Mrs. Mueller took her daughter's part Dant committed the crime. Both women will recover.

Ice Bridge at Louisville.

Watertown, N. Y., Feb. 11.—An ice bridge has been formed across the St. Lawrence river at Louisville. The water is very swift and the danger of a gorge by reason of the bridge is so great that dynamite will be used to dislodge the ice. The ice bridge is believed to have been utilized by smugglers.

May Commute the Sentence.

Mascoutah, Ill., Feb. 11.—The re-suit of the Kahn trial at Belleville is the chief topic of discussion in this section. There is a growing feeling in favor of commutation of Mrs. Kahn's sentence to life imprisonment and a monster petition will be presented to Gov. Altgeld asking for the commutation.

Winter Oats Killed.

Birmingham, Ala., Feb. 11.—The entire crop of winter oats in this state has been killed by the recent frost. The ground was frozen solid for three inches. The farmers say not a grain of oats can survive.

A SHEBOYGAN FIGHT
WILL COST A LIFEDANCE ENDED IN A BLOODY
FREE-FOR-ALL.

Theodore Optengenth Was Fatally Stabbed by Joseph Thimm, Who Succeeded in Making His Escape After He Had Plunged the Knife Into Optengenth's Face and Neck.

Sheboygan, Feb. 11.—During a free-for-all fight at a dance hall here last night, Theodore Optengenth was stabbed in the face and neck by Joseph Thimm, and it is thought that wounds will prove fatal. Thimm succeeded in escaping.

COREA WON'T HAVE IT.

Chinese Calendar With Two May Months Rejected.

Washington, Feb. 11.—The Korean legation has served notice on the Chinese minister at Washington that Korea is independent, a fact that he had ignored in sending the Korean charge d'affaires a copy of the Chinese almanac for the current year. Ordinarily the presentation of a calendar might not be considered a matter of great importance, but the Chinese years are arbitrarily managed by the emperor, Kwang Su, who has arranged for this year to have thirteen months, including an additional month of May. This calendar is annually distributed to the subjects of the emperor and to the rulers of vassal states who are commanded to govern their dates by the emperor's system. Heretofore, the Koreans have used the Chinese year, most of their transactions being with China, and this has been considered by China as satisfactory proof of vassalage. When Yang Yu, the Chinese minister there, sent the Koreans an official calendar several days ago, it was promptly returned to him with a notice that they had no use for it, as hereafter they intended to count time as other civilized nations.

GAS GOES TO WASTE.

Biggest Well in the World Discharging Great Streams.

Parkersburg, W. Va., Feb. 11.—The "Big Moses" gas well, on the Spencer farm on Indian creek, owned by the Victor Oil company, which company has spent thousands of dollars in a few months in endeavoring to shut it off, burst all bounds Thursday night, tearing up fifteen acres of land and carrying everything before it. It is pronounced the greatest "gaser" ever struck in the world. The roar of the escaping gas, which can be heard for miles, is reported to be terrible, and cattle, horses and sheep pastured in the vicinity are losing their sense of hearing, eventually dying from an unknown cause. As the pressure cannot be regulated it will have to be allowed to exhaust itself.

PRINCE WANTS TO FIGHT.

Brother of Late King of Naples Challenges an Ex-Duke.

New York, Feb. 11.—A special dispatch to a morning paper from Paris says: "The ex-duke of Parma-Bourbon, who lost his throne in the Italian insurrection of 1859, and who is father-in-law of Prince Ferdinand of Bulgaria, has just been challenged to fight a duel by his cousin, Prince Pascal of Bourbon. A quarrel took place between the two prince at the funeral of the ex-king of Naples—Arco, which culminated in Prince Pascal being denied permission to take part in his brother's obsequies. He was even expelled from the town of Arco by the chief of police."

Masked Men Rob a Safe in a Depot.

Falls City, Neb., Feb. 11.—Two masked men held up the Missouri Pacific night operator and robbed the depot safe yesterday morning at 3 o'clock. The robbers shoved a double-barreled shotgun through the window and fired at the operator, missing him but tearing the telegraph instruments off the table. He emptied his revolver at them but the shots took no effect. At the point of a rifle he was compelled to open the door of the safe, from which a small sum of money was taken. The robbers stole horses in the neighborhood and escaped.

Won't Apologize to Negroes.

New Orleans, La., Feb. 11.—Eighteen students of Tulane university, representing some of the best known families in this city, having been required to sign an apology for certain "pranks" that displeased the students and faculty of Leland university, a colored institution adjoining the Tulane, declined to give the requisite satisfaction and will be suspended, if not expelled, from Tulane for their refusal.

Railway Concession Withdrawn.

Guaymas, Mexico, Feb. 11.—Official advices have been received here announcing the cancellation by the government of the important concessions granted Miguel L. Cornejo, capitalist, for a railroad from Lapaz to the mining district of Del Trunfo. The deposit of the \$5,000 which the concessionaire made with the government is declared forfeited.

Young Fair Stands Alone.

San Francisco, Cal., Feb. 11.—Charles L. Fair, son of the late ex-United States Senator Fair, says the contest of his father's will will not be made jointly with his sisters' Mrs. Oelrichs and Miss Virginia Fair, but is being made wholly and solely by himself, at his own personal risk and responsibility, and that any statements to the contrary are false.

Pig Tin Shipped from Texas.

San Antonio, Tex., Feb. 11.—A carload of pig tin, amounting to 322 bars, was passed through here consigned to New York. It was shipped from mines near Durango, Mexico. It is said to be the second shipment of tin ever mined on the American continent.

FIFTY YEARS' WORK FOR GOD'S CAUSE

GOLDEN JUBILEE OF THE CON- GREGATIONAL CHURCH.

Rev. T. P. Sawin's Sermon Yesterday Morning—History of the Sunday School—Growth of the Church—Memories of a Pastor's Wife—Pastors and Pastorates.

Nineteen trained voices sang the anthem; the organ's throbbing notes swelled and died away; the audience joined in the responsive reading and the singing of hymn number 176; the prayer was offered; notices were read; the offering received; another hymn was sung; Rev. T. P. Sawin preached, and the services commemorating the fifty years of labor in the Lord's vineyard by Janesville Congregationalists were begun.

The big church was filled when the choir arose to sing yesterday morning. Rev. Mr. Sawin, when he arose to speak, said that it was nearly twenty years since he had preached in Janesville, where he held a pastorate for

Rev. T. P. Sawin.

six years. He had no new commandment to offer, and no new message. He said he would preach from St. Paul's epistle to the Philippians, chapter 2, twelfth and fifteen verse:

"Wherefore, my beloved, as ye always obeyed, not in my presence only, but now much more in my absence, work out your own salvation with fear and trembling."

"For it is God which worketh in you both to will and to do of his good pleasure."

Doubt not your strength, but depend upon yourself and no one else, he advised. God and man worked together and all members of the co-partnership were active. Paul said:

"I can do all things through him who giveth me strength," which, Mr. Sawin continued, was the proper idea upon which to work. Eternal vigilance and unceasing effort is the price of our moral welfare, he argued, and he likened this theory to that of the man who first clothed himself with skins and then planned to better his condition. Little by little he added to the comforts of his home until finally it was complete. So with the man who wanted salvation. Each good act, he insisted, helped to complete the final structure.

"Let no man say 'I have worked out my salvation,'" he continued, "but rather let him say, 'I am working at it.'"

People were too apt to think that nothing could be done unless the wind and tide were favorable, he insisted, but he held that the skilled sailor looked upon these things, when unfavorable, as obstacles to be overcome. The Christian sailor would do the same with the barriers between himself and salvation. He should look upon the place in which he was as the ground assigned to him and regard the obstacles as evidences of his success. Jesus was the one man, he held, who had fought the battle of life to a finish. Some men had tried to be so good that they had reduced Christianity to a system, and every act had to be analyzed, until they had become confirmed celibates. When God was a member of the corporation, man had no right to belittle his own work in the firm.

Alexander and Napoleon were compared to Paul; they conquered countries to be sure, but Paul reclaimed Asia and Europe to Christ. Paul's trials and tribulations furnished him a theme with which he illustrated the power of faith. Some people thought that a single error weakened the strength of the whole bible but he held that one or two verses were enough to inspire a person who wanted to believe. No effort, made in the faith, had ever failed. The word brought all men together and gave them strength. In closing he advised the congregation to put behind them all useless agents and to stand with lighted lamp ready to enter the race. With such inspirations they could work out their own salvation.

HISTORY OF THE SUNDAY SCHOOL

Fifty Years of Work Outlined By J. T. Wright.

J. T. Wright went back fifty years to begin his paper on "The Church Sunday School." His carefully prepared and very interesting paper was read last evening and its exhaustiveness showed plainly the work that had been expended upon it. The history dated from June, 1856, he said. C. H. A. Buckley was the first superintendent and was succeeded by Joseph Spaulding. He gave the list of the superintendents from that day up to the present time. The list of secretaries, treasurers and librarians was next read. The teachers' names, he said, could not be given as there

had been no complete record kept, but among them Judge John R. Bennett and Justice J. B. Cassidy were numbered. Mr. Wright paid a tribute to the teachers, and said that Mrs. Wright had served the largest term. The struggles of the early school were touched upon and the teachers whose names he could recall served as the theme for an interesting chapter. The earlier members also furnished him a text for five minutes of entertaining reminiscence. Going to church every Sunday evening was customary in those days, he said, and the little school had developed into one with thirty-five classes and four hundred and fifty members. The earlier schools in the county were described and compared with those of the present time when eighty were supported in Rock county and in this connection he touched upon the excellent work of County Missionary John H. Lees.

Boys Who Went To War.

The excursions that were taken by the school were told of and from that Mr. Wright passed to the roll of scholars who went to the war. He paid a tribute to their memory and urged that their graves be decorated by the school on Memorial day. The Sunday school buildings were also described from the first one to the present commodious and comfortable quarters and he told of the struggle, in early days, to raise the money necessary to provide rooms for the continually growing classes. May 1, 1875, the church was burned, but it rebuilt the same year. The scholars who took their early spiritual knowledge in the old Sunday school, furnished a subject that was dealt with entertainingly. He read letters from many of them who now reside in other states, in which they stated that much of their success dated from the learning they received in Janesville. In closing he introduced J. E. Moseley of Madison, who was formerly superintendent. Mr. Moseley read other letters received by Mr. Wright, which he was to modest to read himself, and in conclusion he also made a few remarks touching upon his work in Janesville.

Mr. Wright's paper was one of unusual interest, as it was brightened by numerous anecdotes. The subject could not have been put in better hands, for no person in Rock county has had more to do with the Sunday schools than Mr. Wright.

THE HISTORY OF THE CHURCH.

Rev. S. P. Wilder and John M. Whitehead Divide the Subject.

The history of the church was assigned to Rev. Sedgwick P. Wilder and John M. Whitehead, the former dealing with "The Foundation" and the latter with "The Superstructure." These two papers were read this morning, and were of great interest.

Rev. Mr. Wilder traced Congregationalism in Wisconsin back to July, 1820. Dr. Jedidiah Morse, he said, then a Congregational minister at Fort Howard, preached the first Protestant sermon delivered in Wisconsin, he coming west on a commission from John C. Calhoun, then secretary of war, to found a company of Stockbridge Indians, and thus began Protestantism in Wisconsin. The year 1827 brought Rev. Jesse Miner, a representative of the American board, to visit them, and in 1828 he became pastor of his Indian Congregational church. The first Protestant church in Wisconsin was built that year or the next. Other churches were organized in this order:

Other Churches Organized.
Green Bay, March, 1836; Milton, August, 1838; Beloit, December, 1838; East Troy, June, 1839; Lake Geneva, April, 1839; Whitewater, July, 1840; Delavan, August, 1841; Fort Atkinson, October, 1841; Shopiere, April,

J. T. Wright.

1844 and Elkhorn, December, 1843. He sketched the early times when the church was struggling for life. The early members were also touched upon and the paper showed that great care had been expended upon it. Several facts concerning the early history had been incorrectly entered upon the various records from which he compiled his paper and these were corrected and the explanations given. Mrs. Alfred Dewey was the only charter member alive, the present church being organized Feb. 11, 1845. The other charter members were:

Benjamin Morrill, Mrs. Delia Morse Morrill, Joseph Spaulding, Mrs. Lydia S. Ellsworth Spaulding, Erastus Dean, Mrs. Judith Colman Dean, Chester Dean, Mrs. Hannah T. French, Miss Susan French, Luke Chesborough, Miss Frances Chesborough (Dean), Mrs. Eleane McNitt Strunk,

Mrs. Lydia Holmes Sears, Mrs. Almira Lovey Culver, Mrs. Almira Helen Stiles (Dewey.)

The church was then duly organized. Several errors were made in previous list which Mr. Wilder worked hard to correct. Many interesting reminiscences and bits of history are given which lack of space makes it necessary to omit, but continuing he says that in 1845 the town contained twenty-six brick houses, nine of stone and seven log cabins. The population was 855, New York furnishing 397.

Mr. Whitehead's Paper.

John M. Whitehead took up the theme where Mr. Wilder left off and brought it up to the present day. Since the days of the Rev. Mr. Foote, great changes had been made and much good accomplished. He outlined the growth of the organization that started fifty years ago today, and his picture contrasted with that of Mr. Wilder. Mr. Whitehead's paper was carefully prepared and was listened to with close attention. Another paper of unusual interest was that of Mrs. E. M. Foote, wife of the first pastor, who dealt with "Memories of a Pastor's Life." She told of the early days when her husband preached at Emerald Grove and Janesville for \$100 a year from each congregation, and \$200 per annum from the American Board making \$400 a year in all. Meetings were held at that time in the court house and the old red brick school.

"Pastors and Pastorates" was Miss Elizabeth P. H. Little's theme and the paper that she read was of much interest and historical value. She began with the pastorate of Rev. Hiram Foote and ended with the present minister, Rev. Sedgwick P. Wilder and sketched the life and work of each.

This afternoon the annual home gathering was held followed by roll call, the thank offering, the annual reports, business and elections.

THE TOWN TALK OF A DAY

WHEN the store room at 7 and 9 South River street opens tomorrow morning the finest stock of clothing at bankrupt prices ever seen will be shown. 50 cents on the dollar will get a dollar's worth. We leave it to your own judgment. Frank Baack.

If you wish to see a line of shoes that are away beyond anything ever offered in Janesville, step in and let us show you our new spring styles. They show shoe making. Brown Bros. & Lincoln.

EVERY time you purchase a piece of clothing any other place than our bankrupt sale, you will be cheating yourself out of about 50 cents on the dollar. Sale opens in the morning. 7 and 9 S. River street.

Go into all the clothing stores in the town, get their prices on clothing and then come to us. We'll guarantee to save you 50 cents on the dollar. Frank Baack, 7 and 9 S. River Street.

The fine plumbing, gas and steam fitting we have done throughout the town is bearing good fruit. The Grant school job is one and more will follow. Green & Allen.

OUR spring stock commenced to come in Saturday. The most beautiful line of shoes you ever saw. Just come in and see them. Brown Bros. & Lincoln.

Just an even half dozen sleighs left in the house. Whoever wants them come and get. All we ask is part of what they cost. F. A. Taylor.

We are selling at actual wholesale cost in order to raise some much needed money. Sale will continue through this month. Lloyd & Son.

We sold 1,000 loaves of bread Saturday by 7 o'clock, and could have sold 200 more. Watch for us next Saturday. Dunn Bros.

BULLOCK's pure cream cheese is handled by Dunn Bros., and, by the way, is the only genuine cream cheese in the market.

We will dispose of the balance of our stock of sleighs very cheap. Make an offer. We seldom refuse. F. A. Taylor.

FINE clothing, a bankrupt stock, will be opened in the morning at 7 and 9 S. River St. 50 cents on the dollar.

The regular meeting of the Woman's Relief Corps will be held tomorrow afternoon, at 2:30 o'clock, at Post hall.

ALL we care for is a trial to convince you that we do excellent plumbing, gas and steam fitting. Green & Allen.

SELF raising buckwheat, pure; guaranteed at Dunn Bros.

DR. EATON'S VIEWS WERE NOT UPHELD

TWO MINISTERS PREACHED ON DANCING YESTERDAY.

Dr. Halsey Thought the Pulpit Was No Place To Stir Up Sensations or Seek Notoriety—Rev. A. Porter Thought the Milwaukee Minister Was Able To Defend Himself.

Two Janesville pastors talked of dances and dancing last night. Rev. Dr. Halsey chose "Dancing in General and Charity Balls In Particular" as his theme, while Rev. Andrew Porter gave "A Calm View of the Modern Dance."

Rev. Mr. Halsey held, that while personally he was opposed to public dancing it did not become him, as a minister in the church of God to permit his impulses to run away with his reason and use the pulpit to air his theories and give expression to thoughts not the most elevating, in order to make a sensation.

The church was crowded to the doors, and many were turned away. The attendance and close attention indicated that public sentiment was thoroughly interested in the subject. In discussing the question of dancing in general, the speaker proposed to be perfectly fair, without compromising the principles of morality or Christianity. Very few, if any, will claim that dancing is wrong in itself. In ancient times it was engaged in for amusement, for recreation and sometimes for giving expression to the purest religious emotions. Neither will any one claim that there is evil in the graceful movements of the body as it keeps time with the music.

People Made To Dwell Together.

The evil does not inhere in the law of life which brings men and women together, for a few hours' recreation and pleasure. God made men and women to dwell together and with few exceptions they may be safely trusted.

It was proper to distinguish between dancing in a home on the part of children with a few select guests, and a promiscuous crowd in the ball room.

This is not saying that dancing even in the home is to be commended, possibly it may not be more delictious to morals than many games that are indulged in. The spirit of fairness forces the admission of the distinction between the home amusement and the public dance. It is also fair to consider public opinion in discussing this question, and the fact must be recognized, that many good people differ. Some maintain that there is no harm in the dance.

Among this class are men and women above suspicion, whose integrity is not questioned, who are cordially welcomed to the best social circles. Christians court their society, preachers feel complimented when they enter the sanctuary, and stewards have been known to receive their contributions. Education has much to do with their belief. It is not fair to question the purity of their motives and class such people among the reprobates of the world, any minister who makes the wholesale denunciation of this class and sees only the base and evil side of the public amusement, is prompted by a heart that lacks the most essential elements of social purity.

Some Say Dancing Is Wicked.

Another class is positive that the modern dance is evil from beginning to end. They affirm that dancing is of satanic origin injurious to health and morals. They forget perhaps the fact that any amusement however innocent, may be abused until it becomes sinful.

Another thought is expressed with which I have no sympathy, namely that dancing necessarily suggests impure thoughts and excites impure emotions. While on general principles I am opposed to public dancing I cannot accept such a statement as true.

Certain local social circles have recently been greatly agitated over this subject and a few men and women have won for themselves a cheap notoriety. If the persons who attended the Charity ball in Milwaukee are half as bad as represented then the Cream City is almost as bad as Sodom. The question demands a temperate discussion. Charity balls are of modern origin. Churches many times resort to concerts, lectures, festivals and sometimes questionable amusements to raise money for current expenses. People who enjoy dancing and see no harm in it introduced the charity party to provide for the poor and destitute. The fairest objection urged against Charity balls, in addition to objections urged against dancing, is that charity should be dispensed in a more practical way. I commend the Associated Charities as in every way worthy and competent to systematically distribute charity.

Pulpits Not For Sensations.

Personally I wish my friends would not dance for charity, but cheerfully respond to calls made in other ways. If however, they see no harm in such a course it does not become me as a minister in the church of God to permit my impulses to run away with my reason, and use the pulpit to air my theories and give expression to thoughts not the most elevating to create a sensation.

The Methodist church has been drawn into this discussion, and not fairly represented. Every church has a right to make laws and adopt resolutions for self government, and if correctly reported, all evangelical and Catholic churches have put themselves on record as opposed to the modern public dance, there is this difference, however, in administering

church rules: If trouble results, other churches through their leaders, quietly settle the matter, while as Methodists, we evidently fight on the outside like monkeys, for the amusement of the crowd, and think that great good is accomplished by displaying the weakness of humanity in general. Mr. Halsey said he was satisfied that dancing in itself is harmless, but he was also well convinced that the world has captured the amusement, and that the prize is not worth an effort on the part of the church to redeem. Expediency, and the appearance of evil, should prompt christian people to seek amusements that are not questioned.

REV. A. PORTER'S IDEA OF DANCING

He Did Not Defend Dr. Eaton Nor Deal In Denunciation.

"I am not here to defend Dr. Eaton. I think he is able to defend himself," said Rev. Andrew Porter, in opening his sermon on "A Calm View of the Modern Dance." A brief sketch of the ancient dance followed, he saying that there were three forms, the religious dance, the war dance of the savage, and the dance for revelry, but in all these, in ancient times the acts danced by themselves, in which the ancients could see no harm. He did not, as many expected, handle the modern dance without gloves. His words were carefully considered and deliberately spoken. There were too many immoral practices associated with the modern dance he said, and could no more be compared with the ancient dance than could the pure wine Jesus made from pure water be compared with the stuff peddled over our Janesville bars. The ancients danced in daylight, while the modern dancers broke into the night. The religious dance was one of joy, the war dance aroused patriotism. He did not wish to be quoted as saying that all defenders of the modern dance were unregenerate, but he did wish to be understood as saying that this class always defended the modern dance.

While he severely scored the immoral influence surrounding the modern dance, he was very mild in his denunciation of those who patronized them, insisting that it was not only immoral but injurious to health. He was happy in the belief that the Methodist church was not standing alone in opposition to the modern dance, but that the Catholic priests and bishops were preaching against it, and Protestant Episcopal bishops were failing into line.

Promptness Is a Commendable Virtue.

That's why we offer you One Minute Cough Cure. It is prompt in relief and prompt in curing. That is what it is made for. C. D. Stevens.

TOM THOMPSON SPEAKS TONIGHT

Temperance to Begin at the First Methodist Church.

Tom Thompson, the gospel temperance lecturer will deliver his first lecture tonight at the First Methodist church and much good is expected to follow. The workers for temperance urge all citizens to rally to his support as he is a bold, aggressive and fearless leader. If a genuine temperance revival is desired, the friends of the cause say now is the time and invite all to attend the meetings. The doors open at 7:30 o'clock and all seats free.

A Terrible Visitant.

Pain is always a terrible visitant, and often domiciles itself with one for life. This affliction is preventable, in case of rheumatism, by a timely resort to Hostetter's Stomach Bitters, which checks the encroachments of this obstinate and dangerous malady at the outset. The term "dangerous" is used advisedly, for rheumatism is always liable to attack the vital organs and terminate life. No testimony is more conclusive and concurrent than that of physicians who testify to the excellent effect of the Bitters in this disease. Persons incur a wetting in rainy or snowy weather, and who are exposed to draughts, should use the Bitters as a preventive of ill effects. Malaria, dyspepsia, liver and kidney trouble, nervousness and debility are also among the ailments to which this popular medicine is adapted. For the infirmity, a soreness and stiffness of the aged it is highly beneficial.

LEGEND OF THE ORANGE BLOSSOM.

A Pretty Story of an Indispensable Adjunct of Every Bridal Costume.

Like all familiar customs whose origin is lost in antiquity, the wearing of orange blossoms at a wedding is accounted for in various ways. Among other stories is the following pretty legend from Spain:

"An African prince presented a Spanish king with a magnificent orange tree, whose creamy, waxen blossoms and wonderful fragrance excited the admiration of the whole court. Many begged in vain for a branch of the plant, but a foreign ambassador was tormented by the desire to introduce so great a curiosity to his native land. He used every possible means, fair and foul, to accomplish his purpose; but, all his efforts coming to naught, he gave up in despair.

"The fair daughter of the court gardener was loved by a young artisan, but lacked the dot which the family considered nec-

essary in a bride. One day, chancing to break off a spray of orange blossoms, the gardener thoughtlessly gave it to his daughter.

"Seeing the coveted price in the girl's hair, the wily ambassador offered her a sum sufficient for the desired dowry, provided she give him the branch and say nothing about it. Her marriage was soon celebrated, and on her way to the altar, in grateful remembrance of the source of all her happiness, she secretly broke off another bit of the lucky tree to adorn her hair.

"Whether the poor court gardener lost his head in consequence of the daughter's treachery the legend does not state, but many lands now know the wonderful tree, and ever since that wedding day orange blossoms have been considered a fitting adornment for a bride."

The wedding gown shown in the sketch is of satin duchess. The skirt has a round train and is trimmed at the side by a point of white moire, at the top of which is placed a band of white satin ribbon and a plquet of orange flowers. The bodice is gathered at the throat and waist in front and at the waist behind. Point de gene forms a collar around the neck and falls in coquilles on each side of the full front. The gigot sleeves are plain, and the draped belt fastens under a bow at the side.

J. H. Gateley, Manager.

More than 90,000,000 Passengers.

Have been carried by the Lake Shore & Michigan Southern Ry. during the past twenty-five years. Very few were unable to find any fault. The rest were delighted. One of them recently said—"For several years past I have made from two to four trips each month between Chicago and New York and almost always accompanied by from one to three or four others. I believe (as I am informed by your conductors), that I have made more trips between Chicago and New York than any other man during the past few years. I have always traveled over your road in preference to any other, because by careful comparisons with others I have found not only that the road itself is far superior, but the table and the service are in every respect the best of any roads I have ever traveled on. The conductors, stewards, waiters and porters I have found to be uniformly courteous and attentive, adding greatly to the comfort of those who are obliged to travel as much as I am. Trains leave Chicago as follows: 3:00 a. m., 10:30 a. m., 3:25 p. m., 5:30 p. m., 8:45 p. m., daily, and 11:30 p. m. daily except Sunday. H. S. Barlow, T. P. A., 139 Biddle Street, Milwaukee, Wis.; C. K. Wilber, W. P. A., Chicago.

In these days of telephone, telegraph, electricity and steam, people cannot afford to wait days or as many hours for relief. This is our reason for offering you One Minute Cough Cure. Neither days, nor hours, or even minutes elapse before the relief is afforded. C. D. Stevens.

If the Baby is Cutting Teeth, Be sure and use that old and welltried remedy, Mrs. Winslow's Soothing Syrup for children teething. It soothes the child, softens the gums, allays a pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

DeWitt's Witch Hazel Salve cured J. G. Gorrell of the worst case of eczema ever known in the state of Indiana. It cures scalds, burns, indolent sores and never fails to cure piles. C. D. Stevens.

Drawing Jurors. Notice is hereby given that on Saturday, the 16th day of February, A. D. 1895, at 2 o'clock in the afternoon, of said day, at the office of the clerk of the circuit court for Rock County, Wisconsin, at the court house in the city of Janesville, in said county, the petit jurors to serve at the April term of the circuit court for said county, for 1895, will be drawn according to law.

A Good Investment

FOR YOU.

The Beautiful is Here,

Why not enjoy it?

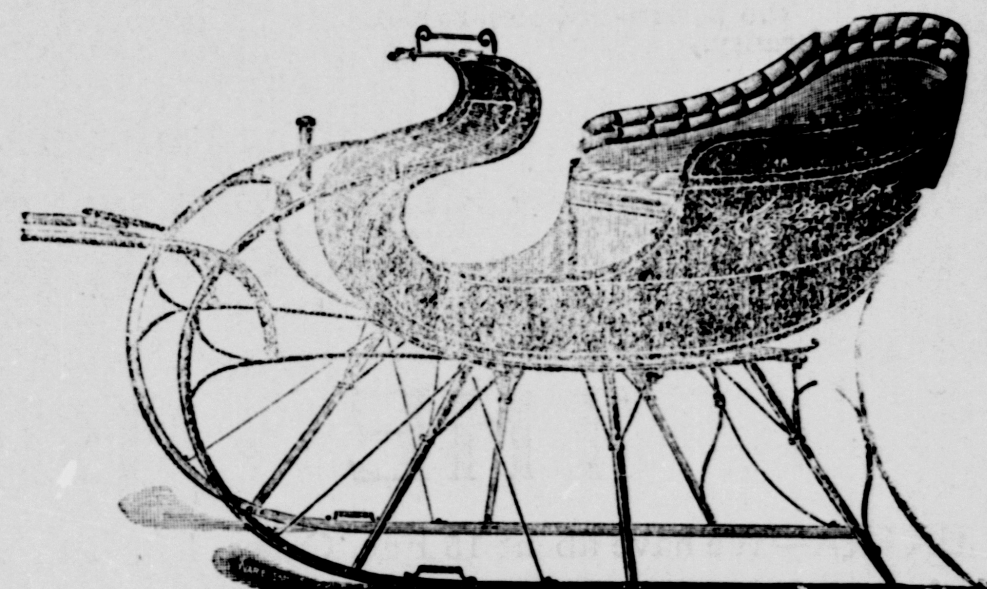

We make it possible for any and everybody to own a sleigh. We are closing out our stock of sleighs. No words to express our opinion. the prices are all that are necessary.

A handsome Portland Sleigh, best made, always sells \$30 for \$40 with profit off

Swell Body Sleighs, beautifully made, as a rule sell for \$35, but as we are closing them out they go for \$20

A good second hand bob sled, also one good second hand cutter one or two seats.

It's displaying wisdom to buy a sleigh now.

THIS DAY IN HISTORY

1735—Daniel Boone, the famous Kentucky pioneer and fighter, born in Bucks county, Pa.; died in Missouri 1820.

1812—Alexander Hamilton Stephens, celebrated American statesman, vice president of the Confederacy, born near Crawfordville, Ga.; died 1883. Stephens was one of the moral heroes of the war between the A. S. Stephens states. He opposed secession in 1860; but, his state having decided to go out, he entered the ranks and was elected vice president of the Confederacy. After the war he served several terms in congress and became governor of Georgia in 1882.

1815—British warship Favorite arrived at New York with the treaty of Ghent, concluded Dec. 24, 1814; it was ratified by congress on the 17th and 18th.

1828—De Witt Clinton, statesman and governor of New York, also projector of the Erie canal, died in Albany; born 1769.

1894—General L. B. Northrop, a prominent ex-Confederate, died in Baltimore; born 1812.

INDUSTRIAL PROGRESS IN THE SOUTH

The coming Atlanta Exposition is entitled to encouragement from every northern state. While the success or failure of the exposition may not seem of particular moment, the spirit of enterprise that prompted the movement is of vital importance, especially to the north. It means not only a disposition to break down barrier walls, but it also indicates a desire, backed by honest effort, to put the productive and neglected south in close touch with the energy, enterprise and capital of the north.

That the north and west are already responding to the cordial invitation is apparent, and it is gratifying to note the material development going on in the south.

The great Dwight mills of Boston, have recently moved, while other enterprises of similar importance are contemplating southern location.

A large knitting factory has just been completed at Atlanta, Georgia.

At Lexington, a company has been organized to develop the blue granite mines. At Garnaville, arrangements are completed with ample capital to develop the gold mines, while the the great coal and iron mines, in the mountain districts are in process of thorough development.

The great tide of emigration is turning south, and the future of the country is promising from the standpoint of national harmony.

Seven Bodies Washed Ashore.

Halifax, N. S., Feb. 11.—A three-masted American schooner has been wrecked off here. Seven bodies have been washed ashore. The schooner hailed from Gloucester, Mass., and is the Clara F. Friend. The entire crew of fourteen men is lost.

Elbe Survivors Reach Gotham.

New York, Feb. 11.—Three of the survivors of the ill-fated Elbe arrived on the Umbria yesterday. They were Carl Hoffman of Grand Island, Neb.; Jan Vevera of Cleveland, O., and Eugene Schlegel. They are bitter in their condemnation of the officers of the wrecked boat.

Mystery in the Tucker Killing.

Ardmore, I. T., Feb. 11.—The manner in which the five members of the Tucker family met their death in their lonely log hut in Bayou is still a mystery. Late last night Fred Wilson, son-in-law of the dead Tucker, was arrested, charged with the murder and has been placed in jail here. He refused to talk. D. B. Reed, a farmer, has been arrested as an accomplice.

WASH DRESS GOODS

I ever saw in Janesville.

Is the compliment that many women are daily paying to the very superior styles that we are now showing. Our object in going to New York so early was to procure the very choicest styles that are always eagerly picked up by the wide-awake merchants everywhere, which make it impossible to get them later. We present an array of novelties for the early buyers, at once exclusive and pleasing. Our clerks have more time to show the goods this month than next, and you are all welcome to call and look over our very complete assortments.

The Japonettes—

30 inch woven in stripes and checks; colored, on lovely tinted grounds, is a soft finish material of rather good weight.

The Piques and Ducks—

Weaves similar to last season's styles all this year's, light, dark and medium grounds and printed in neat dots, figures and stripes, also solid colors, 29 inch.

Royal Batiste, Irish lawns

36 inch, a slight difference in the qualities, both serviceable, a large range of styles. They are of the muslin family, good weight.

Indian, Marsalla and Em-

press Dimities. the pen cannot picture their rare beauty.

Organdies—

Dark and light grounds embellished with the daintest of flower designs.

High Class Novelties—

Scotch Tufted Gingham, silk Stripe Zephyrs and Swivels the raging silk and cotton fabric; Chalice Laine—a satin stripe half wool challie; Challies in wool and half wool. All the above in a superb collection of choicest things in the market.

The Gingham Circle

NEWS FROM MILTON JUNCTION

Funeral of Mrs. Buten Held Thursday—Eight Joined the Church.

MILTON JUNCTION, Feb. 9.—The funeral of Mrs. Clinton Buten, who died at Morgan Park, Ill., Saturday, was held at the S. D. B. church here Thursday afternoon. Rev. E. A. Witter, of Albion, conducting the services. Mrs. Edwards, mother of Mrs. Buten, and other relatives of Albion were present. Rev. G. W. Burdick and wife went to Albion Sunday, where Rev. Burdick preached the funeral sermon for the six months' old babe of Rev. E. A. Witter and wife. George Buten is too feeble to go out at present. Ina Ellsworth and two friends came over from Fulton Saturday and spent Sunday at Mr. Eli's worth's. Eight persons were taken into the M. E. church last Sunday on probation, as the result of the recent meetings held here. A lawsuit occupied the attention of the male portion of the community Tuesday. A woman against a lawyer. Of course the lawyer won. Undertaker Coon had quite an encounter with snow drifts Thursday morning, in attending at the funeral of David Smith of Harmony. He and his assistants were overturned into the snow and the bobs were broken. The horses were up to their shoulders in the drifts some of the time. The country roads are almost impassable. Arthur Boedecker will go on the road for Durand & Co. of Chicago, selling groceries. He goes to Chicago Saturday to enter work. May success attend him. Miss Addie Crandall is improving. Mrs. Frank Westcott of Albion is staying a few days with her. G. W. Coon, insurance adjuster, is on a two weeks trip in Iowa. Mrs. M. T. Howard of Rice Lake, Wis., was calling on relatives here this week. Mrs. Martin Field returned from Beloit Saturday. Mrs. Ed Nichols visited Edgerton Thursday. Dr. Tinkner is on the sick list this week. Some twenty-five members of the I. O. G. T. here went to Indian Ford Saturday night to attend the lodge entertainment there. Mrs. I. P. Hinkley visited her relatives in Whitewater the past week. Mr. and Mrs. Charles Clark returned from a few days visit at Walworth Tuesday. They were five hours on the way and encountered some rough traveling. Mr. and Mrs. Will Henderson of Edgerton visited at Ed Nichols Wednesday. Mrs. A. R. Greene of Madison and Mrs. F. W. Coon of Edgerton called on relatives here one day the past week. The "train" social by the Junior Endeavor at the Seventh Day Baptist parsonage last Saturday night was "lots of fun" for old and young. Ruby Carr is improving slowly at Albert Maxson's. Her mother hopes to be able to move her home in a few days. Messrs. Lund, Cox, Hays, Call and Miss Rabis of Indian Ford I. O. G. T. visited Milton Junction Lodge Tuesday night.

John J. Astor Gets More Riches.

New York, Feb. 11.—A deed of conveyance has been recorded in the registrar's office in this city transferring to John J. Astor absolutely twenty-two parcels of real estate situated in Broadway, Wall street, Dey street, Prince street and other downtown localities of the city. The property is estimated to be worth \$2,000,000 and was transferred by Philip Kissam, John J. Astor and George L. Day, survivors of William Cruikshank, deceased, as executors of William Astor and trustees under the Astor will, which provided for the support and education of his son John J. Astor, and the disposition of certain real and personal estate to him on his attainment of his majority and also of the age of 25 years.

THE Council meets tonight.

DR. MILLS WRITES FROM BERLIN.

Great Opportunity To Study Surgery But Social Customs Are Queer.

Dr. Mills writes from Berlin, Germany, that there are great opportunities for the study of surgery there, although there are some drawbacks in the social line. Everyone turns to the left when passing on the street, and his size is all that saves him from many a set-back. When you order dinner at a restaurant you are charged extra if you do not take beer. He also says that he has a fine boy, which he calls James Stuart Mills, a German by birth, that he expects to bring home with him.

RECEPTION FOR REV. MR. SAWIN

Mr. and Mrs. B. H. Eldredge threw open their home Saturday evening.

A reception in honor of Rev. T. P. Sawin was given by Mr. and Mrs. B. H. Eldredge at their home on East street Saturday evening, and many old-time friends and members of his former congregation were afforded an opportunity to meet him. The reception, which was entirely informal, was held from 7:30 to 9:30 o'clock, and afforded much pleasure to the large number who attended. Mr. Sawin will remain in Janesville until Wednesday.

JOHN H. LEAS TO LEAVE THIS FIELD.

County Missionary Goes To Windham Minn., March 1.

John H. Leas, the efficient county missionary, will close his work in Rock county on March 1 and leave for Windham, Minnesota, where he and his wife will begin work in a new section. Mrs. Leas left today for Rossville, Ia., but her husband will remain here until spring. Mr. Leas has done most efficient Sunday school work in this county and in so doing has made many friends who will wish him and his success in his undertakings.

TEE PROGRAM FOR TONIGHT.

COMMON Council, at the city hall.

IMPERIAL Entertainers, at the opera house.

Light Infantry, drill, at the Armory.

THE Barbers Union, at Central Labor hall.

THE Cleghorn Reading Circle, at Dr. H. A. Palmer's office.

Another Step Forward.

The Janesville Machine Company has placed their goods in the hands of the Lowell Hardware Company to handle this season or in other words they have appointed E. W. Lowell their retail agent at this point. He is having the basement of his large hardware store cleaned and fitted up for a sales room and in a few days he will have mowers, reapers, harrows, plows, etc., set up there and in full operation. This is a step in the right direction as the Janesville Machine Company is one of the largest and best in the northwest and when it comes to pushing out goods they could not have made a better selection than they did. Everything they manufacture will be on exhibition at The Lowell Hardware Co.'s in a very short time.

War Cloud at Buenos Ayres.

THE COUNCIL WILL HAVE TO HUSTLE TO-NIGHT.

In Order To Get a Bill Before the Legislature It Must Go To Madison on the Limited Tonight, as New Business Will Be Shut Off Tomorrow—Committees To Report.

Decisive action on the question of the charter amendment will probably be taken at the meeting of the council tonight as it is expected that the special committee of which Dr. Henry Palmer is chairman will make a report on that subject, which must be acted upon without delay, as tomorrow is the last day for the introduction of new business in the legislature and all matters must be presented by that day. City Attorney McElroy will go to Madison tomorrow to attend a consultation with the city attorneys of a number of Wisconsin cities in relation to amendments to the general charter law, that it may be brought in harmony with all cities who may wish to adopt any portion of that law. But little other business of importance will come up.

In case the council take action on the matter, and it will require legislation it will take some quick work to get the bill to Madison in time. The bill will have to go up either on the 9:30 p. m. or 1:30 a. m. trains tonight in order to reach the legislature before new business is shut off.

SENSATION IN SCIENCE.

Caused by a Former Resident of Janesville.

Any discovery in the way of a new remedy for curing disease is always sure to attract attention. Few are free from nature's ills in one form or another, and he who alleviates human suffering is surely a public benefactor. Our former townsman, Orange Williams, now of Milwaukee, while seeking a compound for the preservation of meats, hit upon what is already becoming one of the most important discoveries of the age in materia medica. He experimented with the gases of his compound in various ways. It instantly arrested all decay in meat, while leaving no taste or flavor of the compound in the article treated. A dressed chicken which received a single application over three years ago is as sound and free from decay today as when killed. Eggs which were kept a year after being treated, were cooked and eaten and pronounced by all to be as good as fresh laid. It seemed to completely destroy the germs of decay. Its purifying and preserving qualities on inanimate matter started a train of thought. If the greater portion of the diseases to which flesh is heir were caused by germs as now claimed by all scientists why would it not be efficacious in these also? Among them are cancers, Bright's disease of the kidneys, catarrh, dyspepsia, old ulcers, erysipelas, eczema, all skin diseases and inflammation in every form. These cases being wholly harmless he made a saturated solution of them and applied it in numerous cases, and the cures were marvelous. Chronic dyspepsia were made completely sound and well; old ulcers which had baffled medical science were completely healed; catarrh of the head and stomach gave way before this germ destroyer. Thus it ran the gamut of all affections in which the decay of tissue forms the principal cause, with unqualified success in each. Such is "Septicide," the name he gave it, which means to kill decay. There are a number of our best citizens who by experience have already learned the value of "Septicide" by being cured of obstinate diseases, and we are told that its sale is quite extensive with our druggists. For sale by Prentice & Evenson.

CROWD AT JOHN BYRNE'S FUNERAL

St. Patrick's Church Was Crowded by the Dead Man's Friends.

Every seat was taken in St. Patrick's church Sunday afternoon, and people crowded into the aisles to listen to the funeral services over the remains of John Byrne, who was killed Friday evening, by a St. Paul locomotive. Dean E. M. McGinnity conducted the services, and at the conclusion the remains were taken to Mount Olivet for interment. A large number of people accompanied the funeral party to the grave, and the pall bearers were Patrick McCaffrey, Michael Mulcahey, Richard Barry, William Norton and William Welch.

Funeral of Dennis Malady.

The funeral of Dennis Malady was held at St. Mary's church at 9 o'clock this morning, the services being conducted by Rev. Father Collins. The attendance was quite large, and at the conclusion of the services the remains were taken to Mount Olivet for interment. The pall bearers were Patrick Cantwell, Neil Gillespie, William Noonan, Lawrence McCarthy, James Hageny and William Ward.

Mrs. Louis Kath.

Mrs. Louis Kath died this morning at her home on E. M. Hyzer's farm. Mrs. Kath formerly lived on South River street, and was well known in Janesville, where she had many friends who will mourn her demise. She leaves a husband and six children, beside her parents, one brother, and two sisters. The funeral will be held at 12:30 o'clock Wednesday at the home.

Funeral of Lawrence Burke.

The remains of Lawrence Burke of the town of Harmony, were buried in Mount Olivet this morning, funeral services conducted by Rev. Father Roche being held at 11 o'clock in St. Mary's church. The pall bearers were Michael Higgins and Joseph Barnard.

Mrs. Neilson Krefher.

Mrs. Neilson Krefher died at 12:30 o'clock this morning at the home of her daughter, Mrs. Marie Hilton, aged ninety years. Mrs. Krefher lived in Green county, until about a year ago, when she came here. The remains will be shipped to Argyle, Green county on Wednesday.

To Succeed Lord Randolph.

London, Feb. 11.—Mr. Fardel, conservative, has been returned without opposition as member of parliament for South Apsdington, in succession to the late Lord Randolph Churchill.

Eight Killed and One Injured.

Forest City, Ark., Feb. 11.—The steamer Cyclone blew up in the St. Francis river. Eight persons were killed and one injured.

Fatalities of a Year Among Miners.

Wilkesbarre, Pa., Feb. 11.—Seventy-six men were killed and 233 fatally injured while mining coal in the Wyoming district last year.

Flora McIlmsey's Creator.

Most people who read and enjoyed the poem "Nothing to Wear" when it appeared many years ago fail to recall the fact that the author, William Allen Butler, was then a young lawyer, and has since become a leading member of the New York bar. His specialty is admiralty cases, and he argued a case before the supreme court in Washington a few days ago. Mr. Butler is the author of a volume of verse and has contributed largely to legal literature.

"DARB" NOT TOO SICK TO TAKE A DRINK

WHITE-LIGHT CLUB'S PRESIDENT IN COURT AGAIN.

He Was Supposed To Be Mixed Up with Consumption to a Dangerous Degree. But Apparently It Was Simply the Consumption of Whisky.—Barton Case Adjourned.

The case of the state against Andrew Barton, which was set for trial in the municipal court this morning, was continued until February 13, as Barton is confined to his home in Evansville by illness. Barton was arrested on charge of selling liquor without a license, and was convicted by an Evansville justice, whereupon he took an appeal. There was quite a delegation of Evansville people in the city this morning who were interested in the case.

James Nash and John Griffin were arraigned in the municipal court this morning on charge of being drunk and disorderly on South River street Saturday. Both pleaded not guilty, but were convicted on the testimony of the police officers. Five days in jail were given to each. Many supposed that Griffin, who is better known as "Darb" Griffin, was confined to his bed with consumption, and that he had but a very short lease of life. "Darb," however, is not a weakling, by any means, and appears to have vitality sufficient to bother the police many days to come.

JACK FROST NIPPING VEGETABLES.

Grocers Are Kept Busy To Protect Their Potatoes in the Cellar.

Jack Frost is keeping the grocers guessing, and every time he gets a chance vegetables in the cellars are nipped. Several dealers have struck the expedient of putting an oil stove in the cellar which, so far, have kept Jack out. Yesterday one Main street grocerman neglected his oil stove, and this morning discovered that frost had pinched a large quantity of vegetables, including apples in the barrel. The present weather has been the severest experienced in Janesville for many years, and the frost is getting down pretty deep in the ground.

Notice to Stockholders L. S. & B. Ass'n.

The non borrowing stockholders, series one to five inclusive, in the Loan Savings & Building Ass'n. of Janesville Wis., are hereby notified that on Feb. 25, 1895, the directors of this association will proceed to reduce the funds in the treasury by compelling the withdrawal of stock in said series in accordance with the provision of the by laws.

By order Board Directors.

A. P. BURNHAM, Sec'y.

Note. The above will have to be done unless non borrowing members (series one to five) inclusive take immediate advantage of another resolution allowing 10 per cent. on withdrawals (see other notice in this paper.) The directors believe that in offering 10 per cent. they are fair to borrower and to non borrower.

—FASHIONABLE—
DRESSMAKING

VARIOUS NOTES.

Hints For the Tea Table—New Shoes, Medicines and Collars.

Although many women spend a great deal of time embroidering tea cloths, there is really nothing so delicate and pretty as fine white damask, beautifully laundered. Silk embroidery, besides being clumsy, never retains its decorative appearance after the first washing, while linen damask enjoys perpetual youth and freshness. If a woman has time to devote to ornamental work, she would better spend it on her china than on her linen. A set of tea

THEATER BAG.

cups painted by herself, according to her own individual fancy, would give a more unique charm to her 5 o'clock tea table than a cloth covered with embroidery from edge to edge.

Queen Victoria, when it is possible, brews her own tea. She uses orange pekoe at 5 shillings a pound. The Duchess of Edinburgh takes her tea in Russian fashion. It is made in a samovar and drunk with lemon juice instead of sugar and cream.

Among the newest styles of footwear have appeared shoes with perfectly square toes of medium width, just like those worn 35 years ago. Whether they will meet with general approval or not remains to be seen. They are a decided contrast to the extreme point now prevailing and are possibly too extreme a change to be readily accepted.

Ostrich tips are fashionably employed to trim draped collars and evening gowns. For the bodices of the latter a number are frequently used, being set about the decolletage and fastened in clusters at the shoulders and upon the lower part of the short sleeves.

Elaborate silk or gauze bodices, with plain skirts, are the fashionable attire for the theater. If the sleeves are of half length, long gloves are worn. There is usually a high draped collar to the bodice, but occasionally, on the latest models, a slight, round decolletage appears.

A sketch is given of a theater bag of brocade lined with mirror velvet and edged with a gold cord. The drawing strings are of double faced satin ribbon, and a bow of ribbon is placed at each side.

CAPES AND JACKETS.

Mastic Cloth the Latest Parisian Fancy. Louis Quatorze Hats Worn.

Sleeves are very full, three widths of silk being used sometimes, but soft and not stiffened with anything more than lawn. They are close below the elbows, or if of elbow length are finished with a tiny band or ruffle. Epaulet effects, yokes, revers, full vests and tiny jacket fronts are all worn, but it should be borne in mind that these are only worn on forms that har-

WALKING COSTUME.

monize with their effect. The secret of the perfect dressing seen in Paris seems to be that the ladies adopt only the styles that are becoming to each one of them individually, thus giving an infinite variety and yet keeping within the pale of fashion. Collars are medium high, in soft folds, fastening with shirred ends at the back or under a rosette or square bow of two loops. Separate collars of velvet or chiffon are worn in harmonizing colors with all kinds of gowns. Those of chiffon have a large chou or rosette at the back and one at each side. Full ruffs or bows of chiffon are worn over plain collars both in and out of doors.

Capotes and jackets made of mastic cloth are just now having a great vogue in Paris. Occasionally a fashion appears which finds immediate and universal favor, as in this case, but ultra fashionable persons usually abandon it as soon as they perceive that it is becoming really popular. The capotes are even more worn than the jackets, but whether the fashion is a mere passing fancy, or is likely to last for a time seems to be undecided.

Black hats in the Louis Quatorze style, decorated with black ostrich plumes, are accorded high favor, as they are not only picturesque, but may be worn with a variety of costumes. Black velvet and jeweled buckles often form part of the trimming, and as a number of long plumes are employed these hats are expensive enough to keep them from becoming common.

The sketch shows a walking costume. The gown is of old rose cloth ornamented with applique bands of the same material. The short, tight jacket is of astrakhan and has a rippled basque. The double breasted skirt is closed by two rows of large buttons and has wide revers.

WORKING WOMEN.

THEIR HARD STRUGGLE

Made Easier by the Timely Intervention of One Woman.

[SPECIAL TO OUR LADY READERS.]

All women work. Some in their homes, some in church, and some in the whirl of society. Many in stores, mills, and shops, tens of thousands are on the never ceasing treadmill earning their daily food.

All are subject to the same physical laws; all suffer alike from the same physical disturbance; and the nature of their duties in many cases quickly drifts them into the horrors of all kinds of female complaints.

—ovarian troubles, inflammation, ulceration, falling and displacement of the womb, leucorrhoea, or perhaps irregularity or suppression of "monthly periods"—causing severe headache, nervousness, irritability and lassitude.

Lydia E. Pinkham's Vegetable Compound is the unfailing cure for all these troubles. It strengthens the proper muscles and displacement with all its horrors will no more crush you.

Backache, dizziness, fainting, bearing down, disordered stomach, moodiness, dislike of friends and society—all symptoms of the one cause—will be quickly dispelled, and you will again be free. Accept the truth.

You can tell the story of your pain to a woman, and get the help that only a woman can give. Her address is, Lydia E. Pinkham, Lynn, Mass.

HOMEMADE DRESSES.

HOW TO MAKE ONE PATTERN SERVE MANY ENDS.

The Model Basque Is the Foundation of All Waist Cutting—The Three-quarter Coat—A Few Simple Hints on Tailor Effects.

[Copyright, 1895, by American Press Association.]

The three-quarter coat is a very fashionable shape this season, and it is, with slight variations, a standard form and equally suitable for winter and early spring and for the young and the middle aged. This coat can be easily drafted from the model basque lines. The back is cut in exactly the same way, and so are the side and back gores. The dressmaker decides upon the length below the waist and carries her line down to that measure and makes a mark, allowing a proportionate flare toward the bottom. If the skirt to the coat is intended to be full, what is two inches at the waist line should be ten at the bottom. In cutting the center back pieces, when taking out the slant, leave a jog $2\frac{1}{2}$ inches below the waist line, which is to be belapped and finished like men's coats, with two buttons. All the rest of the seams are sewed and pressed apart. If the material is very thick, the edges of the seams are bound with lustrous dress binding, but if not very thick it should be lined. The lining should be sewed up like the outside of the back and basted along down the sides.

The fronts are to be cut on the lines of the basque model, but an inch larger, so as this is to go on over another dress, or at least a vest. Only one dart is to be taken up in the front. The fold in front of the waist is made 3 inches wide, and this gives width for a double-breasted effect. A seam may be taken down the front of the outside lap if desired, and the buttons are set on each side of it. Pockets may be put in or not, as preferred. They are so very difficult that the amateur may do well to omit them.

The lining to the front being basted in, it is to be hemmed neatly over that of the back, and then the bottom of the back is turned up and hemmed on to the lining with an inch deep hem, which must be well pressed like every other seam. The lapels are cut as per diagram and lined with hair-

LADIES' COAT FOR TWO PIECE SUITS.

cloth or buckram, and the back is faced with silk or moire, while the front is of the material. In some cases both sides of the lapel are alike and neatly tailor stitched. They are sewed to the edge of the front on the outside and neatly hemmed on the underside and turned backward and pressed into their position, and when the sleeves are in they may be tacked fast, as they are apt to fly in the wind.

The collar of these coats can be of almost any kind that the wearer prefers, but that best liked just now is the high turned down shape. There is a diagram giving the shape of one of these, the dotted line showing where it folds over. It should be exactly the right size to meet at the top and flare naturally at the bottom. It should be interlined with buckram and the under part lined with silk. The outer really looks best when made of the dress material and tailor stitched, but a rather more dressy effect is obtained by adding a velvet collar to that, leaving the material to show. This requires great care, and the velvet should be sewed over a foundation of wigan and then slip stitched on.

The sleeves to all the three-quarter coats are large gignets, and for the wearer's comfort and ease in getting it on and off the sleeves ought to be lined with silk. The lining need not be as large as the sleeve, but a medium large coat shape. The wrists are finished with three rows of stitching.

A very rich effect is given to such a coat by sewing soutache braid all over the coat in set design or in vermicelli pattern, the braid standing on its edge. The sleeves cannot be quite so voluminous in that case. Prince Albert coats are quite a rage just now, but it is a fancy too liable to change for a lady to make up her coat in that way. If, however, she wishes to obtain that effect, a couple of lines of very narrow soutache braid defining the waist line to a short point front and back will simulate a seam there, or a wider braid can be used. In that case the two buttons in the back are omitted. The lining of the coat should be stitched to the edges of the flap in the back and turned forward and pressed down before basting in the hem. The lining in the front is sewed to the edges in the same way and turned back and pressed before finishing the bottom or hemming down the front and back under the arms. The sleeves may be plaited or gathered to sew them in. The edges of the seam should be overcast together and bound and not pressed. A tape loop under each arm to hang the garment up by and an ease belt are necessities. The belt fastens in front by lapping over and being pinned. Hooks and eyes admit of no loosening. The buttonholes should be very strongly worked.

OLIVE HARPER.

The Parisian "Dessous," or "underclothing," occupies no small part of the wardrobe of a Parisian. The lace, silk, etc., are often more costly than the outer robe. You may see a lady with a plain blue serge or brown cloth costume, but when she arrives at a muddy crossing or lifts her dress to enter her carriage you see a glimpse of silk and lace that reveals an expenditure and luxury hitherto unknown. Of course the silk petticoats are lined with flannel. There is what is called a jupon discret, equivalent to the homely flannel of our grandmothers, but flannel is the lining, and over it are silk and flounces and lace. Then, again, there is the petticoat that comes next the dress, of silk also and often warmly lined. This has generally a black lace flounce between two silk ones at this season, and sometimes a colored ribbon runs through the lace.

HE SAW THE JOKE.

The Remarkable Quickness of an English Traveler.

Lord Fitznoodle, the second cousin of Lord Dundreary, had, with his valet, the estimable James Yellow-plush, come to America and gone West in the hope of bagging a few grizzly bears and buffaloes. America and Americans seemed to the noble lord "beastly vulgar, doncher know," and this opinion he frankly told these Americans whom he favored with his lordly society. Nevertheless, fate compelled him to accept as a traveling companion a rampant American. They were traveling on horseback across the prairies, and one day, after a vain search for the settlement in which they were to spend the night, they came to a cross road which boasted of a charcoal blacksmith's hut and a sign post. The sign read: "Mugg's corner, four miles on the right-hand road. If you can't read ask the blacksmith."

Thereat the American laughed long and loud but the Englishman remained silent and pensive.

"I say, my good fellow," he expostulated, "I can't see the joke, doncher know. What is it?"

"If you don't see it," replied the American, "I shall not tell you. But I will tell you what I will do. If you see it before we leave the inn to-morrow I'll pay the bills."

All through the rest of the day and evening the Englishman remained silent. He was working the brain of five centuries of culture. When the American retired to his straw mattress there had as yet dawned no gleam of intelligence on the Englishman's face. But in the middle of the night the former was awakened by a loud knock on his door accompanied by a hearty laugh. "I say, me good man," came the voice, "it is a good joke, doncher know. Suppose the blacksmith should be out?"

CURING CROSS EYES.

This is Now Readily Performed by the Early Use of Glasses.

Strabismus, or "cross eyes" are now safely and almost painlessly corrected. The desired result may be obtained by the wearing of proper spectacles in early youth; but if the evil is not then corrected, an operation, later on, will be necessary.

The removal of a "cataract" from the eye is one of the most delicate operations performed by the oculist. A cataract is formed by the lens of the eye becoming opaque, so as to appear grayish or otherwise, when it shuts out the light from the optic nerve. The oculist of to-day cuts into the ball of the eye and removes the darkened lens, and the optician supplies the defect by artificial lenses that make good the sight.

The demand for glass eyes is increasing as the character and quality of the eyes improve. Unightly eyeballs are now removed in part, leaving enough of the muscles to rotate the glass shell that is placed over them. Where the work is properly done the possessor of the glass eye can move it about with all the naturalness of a real optic, and in many cases it is very difficult to tell the manufactured article from the genuine.

All the wild stories about substituting rabbits' eyes for human eyes, or the statements to the effect that oculists can take eyes from their sockets, wipe them on a coarse towel and restore them unimpaired to the happy patient, are all moonshine, and any one who is called upon to listen to any such tales is perfectly justified if, under such circumstances, he should wink the other eye.

Two Definitions of a Gentleman.

"It is to be honest, to be gentle, to be generous, to be brave, to be wise, and possessed of all these qualities, to exercise them in the most graceful manner," says the great novelist, Thackeray. A diner, who had been imbibing too freely, became so noisy that the proprietor directed his removal. The waiter who successfully accomplished this on returning to

the room, expressed his regret at having been obliged to put the individual out. "For," said he, with emphasis, "he's a perfect gentleman;" adding, after a pause, as if to explain how he arrived at so decided a conclusion, "he gave me 'alf a crown."

That's All.

Beggar—Kind gentleman, I beg your pardon—

Gent (promptly)—Granted. I thought you were begging for money.—Pipifax.

Would Save Lots of Time.

Elaine—I'm so sorry I'm not a twin.

Mathilde—Why?

Elaine—So that I could see how I look without a mirror.—Truth.

Too Deep.

Gilleland—Yes, so deep that his ideas never rise to the surface.—Town Topics.

A SURGEON'S KNIFE

gives you a feeling of horror and dread. There is no longer necessity for its use in many diseases formerly regarded as incurable without cutting.

The Triumph of Conservative Surgery is well illustrated by the fact that

RUPTURE or Breach, is now radically cured without the knife and without pain. Clumsy, chafing trusses can be thrown away. They never cure but often induce inflammation, strangulation and death.

TUMORS (Ovarian, Fibroid-Uterine) and many others, are now removed without the perils of cutting operations.

PILE TUMORS, Fistula and other diseases of the lower bowel, are permanently cured without pain or resort to the knife.

STONE in the Bladder, no matter how large, is crushed, pulverized, washed out and perfectly removed without cutting.

STRICTURE of Urinary Passage is also removed without cutting in hundreds of cases. For pamphlet, references and all particulars, send 10 cents (in stamps) to World's Dispensary Medical Association, 633 Main St., Buffalo, N. Y.

Broken Lot Sale

"Coming events cast their shadows before them," These shadows have been casting all week and our now cast. You are now, Saturday evening, in the shadow of the Greatest Broken Lot Clothing Sale. You are about to buy the best clothing made or sold at the same price of shoddy. How do you account for the unanimous testimony that our clothing is the best made or sold? Not that we have made public opinion, but we buy the clothing which is made so it commands public attention and public approbation. For ten years the

ZIEGLER CLOTHING

has been growing in public favor. It has done it solely on its merit and today it has the

HIGHEST RECORD

of any clothing in this market. We have just finished invoicing and have some broken lots of suits, coats and vests, etc., which we wish to clear out. By this we mean one or two suits of a kind. The same in coats and vests. The price we make we guarantee to be less than the manufacturer sold them.
